To whom it may concern,

**COMMUNITY SPIRITED**

I heard about Jane Goddard and Community Spirited through a friend and when my elderly mother needed extra help at home the family decided to contact Jane to see what she could provide. We started with a handful of hours each week but quickly needed to up the input to two hours a day. As my wife and I both have full-time jobs and my brothers all live off the Island this extra help has been fantastic. It is very reassuring to know people who care are seeing mum every day, taking her out, helping her with household jobs, cooking etc. Having Community Spirited helping has meant my mum has been able to remain independent in her own home for at least a year and a half, perhaps two years.

My mum is shortly moving to a good quality care home on the Island and the family consider the time spent with Community Spirited is so valuable to our mum that we will be retaining their services to take her out on trips to her Church and the places that she loves on the Island.

Over the past two years Community Spirited have become part of our family and I honestly believe we could not have got to where we are today without their help. If someone you know needs extra help and companionship I can unreservedly recommend Community Spirited.

Yours faithfully,

*Nicholas Webb*
